

Site Assessment Service

Considering a home purchase in the Florida Keys?
We'll evaluate the suitability for a boat lift.

We will make a personal visit to the property and report:

- The canal width to ensure that it meets the 25% maximum requirement including a cantilevered deck
- The composition & condition of the dock or seawall and its suitability for a boat lift
- The water depth to ensure there's a minimum of 4 feet at low tide
- Any underwater obstructions or seagrass
- The approximate rail length that will be required for an elevator boat lift
- Recommend the best mounting location to meet your needs & the requirements
- Provide an overview of the boat lift permitting process in the Florida Keys
- Provide a copy of our 23-page eBook "Boat Lifts: What You Need to Know." This book provides a practical approach for selecting the best boat lift for your property.

Cost: \$150.00

Amount can be credited against a future boat lift order.

Call: 305-517-6105
